# The Greatest Gift

**RMA Marlton** takes joy in helping families complete the journey to parenthood.

**F**OR MORE THAN 20 YEARS, RMA HAS BEEN PROVIDING THE PINNACLE OF FERTILITY CARE FOR NEW JERSEY RESIDENTS. RMA has grown to include 10 locations throughout the state, including its state-of-the-art 41,600-square-foot center in Marlton, which opened its doors to patients in April 2019.

Jason M. Franasiak, M.D., FACOG, HCLD/ALD, a reproductive endocrinologist who serves as the lead physician and laboratory director at RMA Marlton, says the facility brings to bear all the science, technology, and research innovations for which RMA has become known. RMA Marlton

includes a newly opened embryology and andrology laboratory, as well as an ambulatory surgery center for delicate procedures such as egg retrieval, embryo transfer, and hysteroscopy to evaluate the health of a patient's uterine cavity. Of course, the staff of RMA Marlton strives to deliver exceptional personalized care to each patient who walks through the center's doors.

During this season of gift giving, Dr. Franasiak credits his fellow team members for RMA Marlton's early success in helping patients bring new life into the world. Following are a few examples of patients who say they received the greatest gift—parenthood—thanks to RMA.

The staff of RMA Marilton strives to deliver exceptional personalized care to each patient who walks through the center's doors.

“Our experience at RMA was truly amazing from start to finish. Working with Dr. Franasiak made a hard and emotional process much easier. It is obvious he cares about each of his patients and took the time to get to know us personally. When we finally did get that positive pregnancy test, he went out of his way to call us and congratulate us late on a Friday night. We were really touched and will never forget this gesture. We now have a beautiful baby boy thanks to RMA! We recommend RMA and Dr. Franasiak to anyone in the South Jersey area looking for a fertility clinic. All their staff members went above and beyond in helping make our experience a positive one, regardless of the outcome.”

“I can't give enough praise to Dr. Franasiak and the entire RMA team. I have [polycystic ovary syndrome] and two blocked fallopian tubes, and after a discussion with Dr. Franasiak, I decided to pursue IVF. Dr. Franasiak and the nurses at RMA are so incredibly knowledgeable. They answered every question, responded to every email, and provided consistent support throughout the whole process. They provided hope during a stressful time. I am now 22 weeks pregnant because of RMA, and I can't thank them enough.”  
**—L. Smith, Mount Laurel, New Jersey**

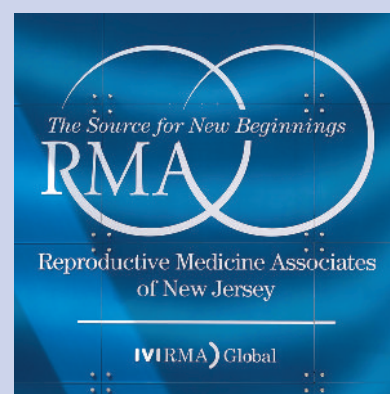

“RMANJ welcomed me as a patient with a lot of reproductive issues and prior failed IVF cycles. For the first time in years, their team of doctors gave us hope. We now have two beautiful miracle babies, three and five years old. My husband and I will be forever thankful that RMA made our dreams come true!”

“Whenever I find out someone is struggling with infertility, I immediately talk about my journey with RMA. I feel like my experience has everything to do with the doctors at RMA. Their knowledge and honest opinion made me feel like I choose the right place. I ended up doing IVF and had a beautiful little girl in April 2017. I knew I would return to RMA for transfer No. 2 when the time was right. I was confident they could help me complete my family. This time was a harder path but I knew with their guidance, I would be successful. I guess third time is the charm for my second daughter. There is a special place in my heart for the team at RMA who helped me become a mom.”  
**—Erica Bach**

“We can't emphasize enough how grateful we are for the kindness and expertise we received from Dr. Franasiak and the RMA Marilton team. During our initial consultation we felt

confident that they could help us achieve our dream of conceiving a child. Communication throughout the process was consistent and clear—from the amazing front staff, to the conversations shared during bloodwork, and all the reassurance and comfort given to us by the nursing staff and doctors. We couldn't have been happier! Every day we look at our miracles and appreciate all the work and support we had from Dr. Franasiak and the staff at RMA. We are so happy we chose them to trust with helping to complete our journey to parenthood.”
