Dominating the Field

Dudhat Dental Group, the “Official Dentist of the Philadelphia Eagles,” provides a comfortable, confident, and fear-free experience for elite athletes and everyday folks in need of general, cosmetic, and implant dentistry.

Although this team is known for their advanced expertise in all aspects of implant, cosmetic, and general dentistry, Dudhat Dental Group is much more than a dental practice; it’s a sanctuary for all patients, including those who struggle with fear, money, or simply have limited availability. As the Official Dentist of the Philadelphia Eagles, Dr. Dudhat and his team are the trusted care provider for the city’s most loved sports team and their fans.

Dilip N. Dudhat, D.M.D., DICOI, planted the roots of Dudhat Dental Group more than two decades ago in southeastern Pennsylvania after graduating from Temple University Maurice H. Kornberg School of Dentistry in 1987. A passionate dentist driven by his vision to provide the highest-quality dental care for all patients, Dr. Dudhat was determined to remove the barriers that prevented people from seeking care, because of time, money, and the fear of pain or a bad experience. His practice has grown over the years, not only in size but also in terms of reputation as one of the most respected and sought-after dental practices in the Philadelphia area.

Whether it’s a regular six-month cleaning and exam or something that requires more

expertise like a dental implant or periodontal care, the team at Dudhat Dental Group has been trusted by the people of southeastern Pennsylvania for more than 25 years. Each location is tailored to create the best possible patient experience.

Dr. Dudhat has invested in the latest technology designed to facilitate treatment. For patients needing implants, for example, he utilizes advanced technologies such as 3D imaging and YOMI® robotic dental implant system for most precise implant placement and more predictable outcomes.

Dudhat Dental Group also offers transformative solutions such as veneers and advanced smile makeovers, as well as options to address issues such as snoring and obstructive sleep apnea. No matter the need, Dr. Dudhat and his team have the skills and technology to create personalized treatment plans that not only improve the aesthetic appearance but also boost patients’ self-esteem and enhance their quality of life.

The practice also stands out for its work with the Philadelphia Eagles. As the Official Dentist of the Philadelphia Eagles since 2021, Dudhat Dental Group devotes a great deal of time and energy to keeping the athletes’ smiles and oral health in peak condition. Whether they need dental care for an on-field injury or from the wear and tear of daily life, the Eagles rely on Dudhat Dental Group to help get them back on the field with confidence.

Linebacker Nolan Smith says, “Off the field, I’m all smiles thanks to Dr. D and his team.” Defensive Tackle Jalen Carter says, “Dr. D and his team worked with me to create a smile that looks and feels amazing.” And Offensive Tackle Lane Johnson says, “Whether I snore, grind, or need a better oxygen exchange, the team at Dudhat Dental Group helps me get my best night’s rest.”

Dudhat Dental Group is a proud supporter of the Eagles Autism Foundation and its dedication to research, advocacy, empathy, and unity. Dudhat Dental Group hosted 94WIP Afternoon with Ike, Spike, and Fritz remote radio broadcast with special guest Reed Blankenship before the Dallas game in November 2024 at the Lansdale Family Dentistry location in Lans-

dale, raising more than \$8,000 for the Eagles Autism Foundation.

Dr. Dudhat and his team are more than providers of care for professional athletes; they are your local dentist. Their dentists, hygienists, assistants, and front desk team members live in the same communities as their patients. The team strives to understand patients’ needs and priorities in order to deliver the care they need and deserve.

Each of the practice’s offices serves as a community hub for men, women, and children who seek exceptional dental care in a setting that prioritizes their health, time, and comfort. Each staff member is trained to provide gentle and empathetic care, including sedation options to help fearful patients remain at ease throughout their procedures. The practice also offers multiple payment options, including an in-house payment plan, to make treatment as affordable as possible.

“Everything we do is designed to deliver a better experience for our patients,” Dr. Dudhat says. “Whether we’re treating one of the Eagles or one of our neighbors, we’re committed to constantly improving our skill sets and adopting technology that will help us address patients’ needs and give them a better overall experience.”

Patients from all walks of life view Dudhat Dental Group as a destination for exceptional dental work. They also see it as a place where anyone, even the most phobic of patients, can have their smiles maintained or restored with the utmost care, skill, and compassion. ■
