Better Than Ever

With a new facility, a growing team, and plans for the addition of specialty health care services, Dr. David Ho and **Modern Family Medicine Main Line LLC** begin a bold new era.

For years, residents of the Main Line and surrounding areas have turned towards David M. Ho, M.D., and Modern Family Medicine Main Line LLC for compassionate, comprehensive health care. Under the leadership of Dr. Ho, the practice has become synonymous with exceptional patient care, a commitment to community well-being, and dedication to staying at the forefront of medical advancements. Dr. Ho and Modern Family Medicine Main Line LLC are entering an exciting new chapter of expansion that reaffirms their commitment to serving the community.

The journey in medicine for Dr. Ho began with a deep desire to provide holistic care that addresses not just the physical ailments of his patients, but also their emotional and social well-being. Dr. Ho earned his Doctor of Medicine degree from St.

Matthew's University and completed his residency in family medicine with the New York Medical College. These two great institutions of learning have shaped what Dr. Ho believes leads to exceptional health care, which comes down to building relationships with each individual patient and family.

"I believe that the best health care comes from a strong physician-patient relationship built on trust and open communication with

all those involved in the decision-making process," shares Dr. Ho. By forming a strong physician-patient relationship, Dr. Ho is able to achieve his overall goal for each patient. "My goal is to understand the unique needs of each patient and family to develop a personalized plan of care that promotes their overall health and well-being," he adds. This philosophy has resonated deeply with his community of patients, which has established Modern Family Medicine Main Line LLC as a trusted source for primary care with a vast array of services.

From routine check-ups and vaccinations to management of chronic conditions, Dr. Ho and his team provide a comprehensive

The new office in Bryn Mawr has expanded exam rooms, a comfortable waiting area, and advanced diagnostic equipment.

range of services with a focus on preventative care. With the understanding that each patient is unique, Modern Family Medicine Main Line LLC strives to provide personalized care that respects the needs and cultural background of each patient. The growing demand for personalized, high-quality medical care has led to an exciting development: the expansion into a larger office facility.

The new office is located within the complex of The Radnor House at 1030 E. Lancaster Avenue in Bryn Mawr. This new location boasts expanded exam rooms, a comfortable waiting area, and advanced diagnostic equipment within minutes from major areas of the Main Line. This move signifies not just physical and patient population growth, but also a commitment to providing an even more exceptional experience for patients and their families.

"Our new space allows us to accommodate our growing population of patients more comfortably and efficiently than our previous location," explains Dr. Ho. "It also enables us to enhance our services and invest in the latest technologies to ensure that we are providing the most advanced care possible."

The larger facility also provides the space needed for another significant development: the expansion of the Modern Family Medicine Main Line LLC team. Dr. Ho is actively seeking care providers with the talent and compassion to join the practice, ensuring that patients continue to receive timely and accessible care.

"We are looking for family medicine providers that share our commitment to patient-centered care and are passionate about making a positive impact on the lives of our patients," he says. "Our goal is to build a team that reflects the diversity of our community and is dedicated to providing culturally sensitive and inclusive care for all people."

The addition of new providers will not only reduce wait times but also enable the practice to offer a wider range of appointment

“We are excited to continue growing and evolving to meet the ever-changing health care needs of our patients and community.”

times, making it easier for patients to schedule visits that fit their busy lives. Dr. Ho and Modern Family Medicine Main Line LLC are excited to announce they have hired a new provider to join their practice in early 2025.

The vision for Modern Family Medicine Main Line LLC extends beyond traditional primary care. Dr. Ho recognizes the interconnectedness of various aspects of health and is committed to offering a holistic approach to patient care. To that end, the practice is planning to introduce new specialties, starting with audiology.

"Hearing health is an often-overlooked but crucial aspect of overall well-being," Dr. Ho explains. "By incorporating specialty services into our practice, we can provide another level of comprehensive care that addresses a wider range of patient needs, right here

under one roof. This will continue to set us apart from other family medical practices."

The addition of audiology will allow Modern Family Medicine Main Line LLC to offer hearing evaluations, hearing-aid fittings, and other audiological services, making it a true one-stop shop for many essential health care needs. This commitment to expanding services demonstrates the proactive approach of the practice to addressing the evolving needs of the community. The expansion of Modern Family Medicine Main Line LLC is a testament to Dr. Ho's unwavering dedication to his patients and his community.

"We are incredibly grateful for the trust and support our community has placed in us," says Dr. Ho. "As we move forward, we remain committed to providing exceptional, patient-centered care. We are excited to continue growing and evolving to meet the ever-changing health care needs of our patients and community."

The future continues to be bright for Dr. Ho and Modern Family Medicine Main Line LLC.

With a new facility, a growing team, and plans for the addition of specialty services, Dr. Ho and Modern Family Medicine Main Line LLC are poised to continue a legacy of providing top-tier health care to the Main Line and surrounding areas. The dedication to compassionate, personalized care that has always been at the heart of Modern Family Medicine Main Line LLC will continue to shine through, solidifying its place as one of the best family medical practices in the area. For those seeking a health care provider who truly listens, who values their individual needs, and who is committed to their long-term well-being, Modern Family Medicine Main Line LLC stands ready to welcome them with open arms.

This is more than just a medical practice; Modern Family Medicine Main Line LLC is a health care home built on a foundation of trust, expertise, and a genuine passion for serving the greater community. ■
